RESOLUTIONS.

These resolutions were adopted by the Ladies Aid Society No. 28 S. of Y. 66:

WHEREAS, In view of the loss we have sustained by the decease of our friend and brother Joseph C. Richmond, and of the still heavier loss sustained by those who were nearest and dearest to him, and

WHEREAS, It is but just that a fitting recognition of his many virtues should be had therefore be it

RESOLVED, That in the death of Joseph C. Richmond this society laments the loss of a brother who was ever ready to proffer the hand of aid and the voice of sympathy to the needy and distressed of the fraternity; an active member of this society whose utmost endeavors were exerted for its welfare and prosperity. A friend and companion who was dear to us all. A citizen whose upright and noble life was a standard of emulation to his fellows.

RESOLVED, That the heartfelt sympathy of this society be extended to his family in their affliction.

RESOLVED, That the charter of this society be draped in mourning for thirty days.

RESOLVED, That these resolutions be spread upon the records of this society and a copy thereof be transmitted to the family of our deceased brother, and to the CHARITABLE TRUSTS and Wilson County Citizens for publication.

MICROBES.

Live Animal Germs the Cause of All Human Disease.

Wm. Radam's Microbe Killer Positively Cures All Disease by Killing the Microbes Which Cause It.

For generations past people have been drilled into the belief that every symptom of disease, such as inflammation, suppuration, the various forms of fever, pain, colds, etc., is produced by a different cause. Such is not the case. All disease is decay, or, in other words, fermentation of the blood and tissues. This fermentation, which gives rise to the various symptoms of disease, viz., inflammation, fever, pain, nervousness, etc., etc., has been proven by Wm. Radam and leading scientists of the day to be caused by the presence of microbes in the body. The microbes causing consumption, influenza, whooping cough, erysipelas, skin diseases, typhoid fever, cancer, pneumonia, etc., etc. have actually been photographed, through the microscope, by Wm. Radam, and these photographs (enlarged) may be seen daily (free) at 87 Monroe St. Chicago.
